PROFILE SUMMARY

Backend Developer with nearly 5 years of experience designing and building scalable, high-performance web applications using Python, Go, PostgreSQL, Docker and Git. As a passionate Software Developer with a strong foundation in coding and problem-solving, I am eager to contribute my skills to your innovative team. My experience in developing efficient software solutions aligns perfectly with your mission. I thrive in collaborative environments and am excited about the opportunity to bring my creativity and technical expertise to your projects, driving success and delivering exceptional results together.

EXPERIENCE

Epixel Solutions, Palakkad — Software Engineer

December 2020 - PRESENT

- Designed, implemented, and maintained scalable backend systems using Go, Python, Django, and Docker
- Developed highly dynamic web-applications and RESTful APIs using Django Web-framework and Django REST framework.
- Expertised in implementation of background services using Celery, RabbitMQ, Go.
- Integrated microservices-based architecture improving scalability and fault-tolerance.
- Collaborated with cross-functional teams, delivering projects ahead of schedule
- Optimized database queries, improving data performance and reliability.
- Led code reviews, fostering a culture of quality and continuous improvement
- Integrated third-party APIs, expanding functionality and user reach
- Mentored junior developers, enhancing team skills and project outcomes

SKILLS

- **Programming languages:** Python, Golang, Javascript
- **Web frameworks:** Django, Django REST, Gin
- **Databases:** PostgreSQL, Redis
- **Containerization:** Docker, Docker compose
- **Version control:** Git
- **Task queues:** RabbitMQ
- **Asynchronous processing:** Celery, Go Cron
- **Architectural patterns:** Monolith, Microservices, RESTful APIs

HOBBIES

- Football
- DIY Projects
- Reading tech blogs

LANGUAGES

- **Malayalam** (Read,Write & Speak)
- **English** (Read,Write & Speak)
- **Tamil** (Speak)

EDUCATION

Diploma in Electronics Engineering — *State Board Of Technical Education, Kerala*

June 2017 - April 2020

Achieved first class with distinction CGPA of 9.26 and good academic records.

PROJECT

E-Commerce Platform (In Development).

Django, Celery, PostgreSQL, Redis, Docker.

Personal project built from scratch to explore scalable e-commerce architecture., Implements async order processing and background task handling using Celery., Dockerized multi-service setup for isolated development and production deployment.
